14. This Court has personal jurisdiction over Apotex, Inc. by virtue of, *inter alia*, the fact that Apotex, Inc. has committed, or aided, abetted, contributed to, and/or participated in the commission of, the tortious act of patent infringement that has led to foreseeable harm and injury to Plaintiffs, including Iroko Pharmaceuticals LLC, a Delaware company that conducts business in Delaware and derives substantial revenue therefrom and is a Delaware resident, and because Apotex, Inc. has engaged in purposeful systematic and continuous contacts with the State of Delaware. 33. iCeutica Pty Ltd, as assignee, owns the entire right, title and interest in the '544, '387, '721, '854, '095, '096, and '328 patents.

34. Iroko Pharmaceuticals, LLC is the exclusive licensee to the '544, '387, '721, '854, '095, '096, and '328 patents in the United States.

35. Iroko Pharmaceuticals, LLC is the holder of an approved New Drug Application ("NDA") No. 20-4592 for Diclofenac capsules 18 mg and 35 mg, sold under the ZORVOLEX® registered trademark.

36. In conjunction with that NDA, Iroko Pharmaceuticals, LLC has listed with the FDA the '544, '387, '721, '854, '095, '096, and '328 patents. The FDA has published the '544, '387, '721, '854, '095, '096, and '328 patents in the Approved Drug Products with Therapeutic Equivalence Evaluations, commonly referred to as the "Orange Book."

37. ZORVOLEX® is covered by at least one claim of the '544, '387, '721, '854, '095, '096, and '328 patents.

38. On information and belief, Apotex became aware of the '544, '387, '721, '854, '095, '096, and '328 patents no later than when they were issued by the Patent Office and/or listed in the Orange Book as covering formulations and methods of using the approved formulation of ZORVOLEX®.

39. On or about September 21, 2017, Plaintiffs received a letter, dated September 20, 2017, signed on behalf of Apotex by Deepro R. Mukerjee ("Apotex's Paragraph IV Letter").

40. Apotex's Paragraph IV Letter stated that Apotex had submitted, and the FDA had received, an Abbreviated New Drug Application ("ANDA") under section 505(j)(2)(B)(ii) of the FDCA, seeking approval to engage in the commercial manufacture, use, importation, offer for sale, or sale of Diclofenac capsules 18 mg and 35 mg, a generic version of the ZORVOLEX® product, prior to expiration of the '544, '387, '721, '854, '095, '096, and '328 patents. The ANDA number for Apotex's application is 210299.

41. On information and belief, Apotex Corp. is the authorized representative for Apotex, Inc. concerning ANDA No. 210299.

42. Apotex's Paragraph IV Letter stated that the '544, '387, '721, '854, '095, '096, and '328 patents are invalid and/or would not be infringed by the commercial manufacture, importation, use, sale, or offer for sale of Apotex's proposed generic Diclofenac capsules 18 mg and 35 mg.

43. Attached to Apotex's Paragraph IV Letter was a statement of the factual and legal bases for Apotex's opinion that the '544, '387, '721, '854, '854, '095, '096, and '328 patents are invalid, unenforceable, and/or will not be infringed by the manufacture, use, or sale of Apotex's proposed generic Diclofenac capsules 18 mg and 35 mg.

44. In filing its ANDA No. 210299, Apotex has requested the FDA's approval to market a generic version of the ZORVOLEX® product throughout the United States, including in this judicial district.

45. On information and belief, following FDA approval of ANDA No. 210299, Apotex will manufacture, sell, offer to sell, and/or import the approved generic version of the ZORVOLEX® product throughout the United States, including in this judicial district.

46. On information and belief, following FDA approval of ANDA No. 210299, Apotex Corp., as the marketing and sales agent for Apotex Inc., will sell and/or offer to sell the approved generic version of the ZORVOLEX® product manufactured by Apotex throughout the United States, including in this judicial district.

47. Since receiving Apotex's Paragraph IV Letter, and prior to the filing of the Initial Complaint, Plaintiffs attempted to procure a copy of ANDA No. 210299 from Apotex. Because the terms of the proposed offer would not allow Plaintiffs to meaningfully process the information contained in the ANDA Plaintiffs could not agree to the terms of the original offer. On October 14, 19, and 23, 2017, counsel for Plaintiffs sent Apotex's counsel letters in an attempt to negotiate Plaintiffs' access to ANDA 210299. As of the filing of the Initial Complaint, the parties could not reach acceptable terms for accessing the ANDA.

48. Plaintiffs are not aware of any other means for obtaining information regarding Apotex's proposed generic Diclofenac capsules 18 mg and 35 mg. In the absence of such information, Plaintiffs resort to the judicial process and the aid of discovery to obtain, under appropriate judicial safeguards, such information as is required to confirm its allegations of infringement and to present the Court evidence that Apotex's proposed Diclofenac capsules 18 mg

and 35 mg fall within the scope of one or more claims of the '544, '387, '721, '854, '095, '096, and/or '328 patents.

49. Because they have been unable to obtain a copy of ANDA 210299, Plaintiffs allege the causes herein based primarily on the representations contained in Apotex's Paragraph IV Letter and the other facts alleged herein.

g. That this is an exceptional case under 35 U.S.C. § 285, and that Plaintiffs be awarded reasonable attorneys' fees and costs;
